Thank you very much Tim! Very clear and concise.

All,

This is what was shared with me from Utah State Office. They still have a close hold on releasing maps from the department.

All lands south of Highway 89 is no longer within the Monument boundary.

Corridor 116-206 is close, but is **not** located within the new Monument boundary.

No corridors appear to be in the Bears Ears area, so that should not be an issue.

Tim,

Can you work with BLM-Utah to provide input to Georgeann regarding GSENM? They have a tight deadline of Dec. 19.

Thanks so much, Sally

Sally,

Can you assist with the request below? We need input as soon as possible as we are working toward a Dec 19 deadline and I see that Britta is out-of -the-office until Monday.

For the West-wide energy corridor reviews, we have an online mapper available at <https://bogi.evs.anl.gov/section368/portal/>. We need some assistance on how to depict boundary changes for Grand Staircase Escalante.

See the email below for further and please let me know if you have any questions.

To: Georgeann Smale <[gsmale@blm.gov](mailto:gsmale@blm.gov)>

**We need to get our heads-wrapped around this one.**

With the recent Executive Action by the President (Dec. 4th) to shrink Grand Staircase Escalante National Monument, I'm wondering if we need to revise the map and analysis? (b) (5) DPP

The corridor 68-116\_AZ\_UT appears that it will be outside of the Monument now. (see map below)

## Changes to declared national monuments in Utah

● Original boundary   ● New delineation

Who in DC do you think would know more? I would think WO-400

I've attached abstract 68-116 AZ UT.
